Hi Rosie,

I thought I would send you an update on the German Shepherd Schutzhund Freuline Evita Von Tho-Sei that you sold me about four years ago. She is absolutely fantastic. I couldn't ask for a better dog. She gets along perfectly with Marco (my male shepherd) and all people including children. She is a tremendous watchdog. No one could walk in front of my house without her watching them. She is in excellent health! She obeys very well.

As you know, I am a medical doctor and she comes to the office every afternoon and knows that she cannot bark in the office and is friendly with all my patients. Some elderly cancer patients come in just to see her and hope she will give them a paw.

Evita is seven now and runs very fast. She loves to sunbathe in the backyard and turns the misters on by herself when she gets hot.

I could go on and on, but I am so happy that I have her. Thanks a million!

With many thanks!

Michael Novak, M.D.

P.S. I might add that she and Marco (my male German shepherd who is a tremendous protector of her) are so cordial with each other. When strangers go near her, he watches them closely.
